CHICAGO MARKET. CHICAGO, Oct. 15.—It was a day of action and reaction in wheat, with the bulls having the better of it in the end to the extent of a slight advance. The feature of the day's news was the renewal of drought reports, which, coming so late in the season, had no small influence on the closing strength. Coverings by shorts caused advances in corn and oats. Provisions were dull and firm, closing 5412/je. higher.

NEW YORK DRY GOODS MARKET. NEW YORK Oct. 15.—The dry good market was without marked change to day, a limited attendance of buyers a first hands being recorded. Mail order were also scanty on goods for speedy delivery. In woollen and worsted lines for next year's supplies there was a continued fair demand reported in almost all grades. The probability is that buyer will come total the market for appling and tinued fair demand reported in almost all grades. The probability is that buyers will come into the market for spring and fall goods for ISES with some degree of freedom, as it is said that a good trade will prevail in consumptive markets. The feature of the market is the weakness in print cloths and in gray goods in eastern markets, which has a stuitfying effect on the local market for nearly all grades of cotton goods. The demand from jobbers is still quiet. Collections are still reported to be in favorable condition. Staple cottons are without marked feature. Print cloths, spot extra, are still quoted at 2.7-16d. Prints are still very expensive.

NORTH CAROLINA STATE FAIR, Quarrel Over Fusion-The Durham Talr

The loss by the big fire at Darman yesterday is not so large as at lirst reported. The actual loss, deducting in surance, is now said to be under \$50,000.

The drill of the cadets of the Agricul-tural and Mechanical College here is pro-gressing as well as could be expected when it is said that only three hours a week is the time allowed. For years the trustees, who opposed any military fea-ture, prevented any drill at all and now
